Shakira

Slow motion
Blinds are see through
Let your mind go
Imagine that I kiss you

Turn off the lights and open up your eyes now You can take a glimpse into my soul for tonight

Do you got the heat off girl? Yes I do Can you turn up the temperature? You bet I could Colombian with a swagger. Yes I am

Whatever it takes to make this thing work we gonna Whatever it takes to make this thing work we gonna

There's a spy by my window
I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window
I know it's you
Won't you like to keep an eye on me
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be

I know you
Dream about me
And it turns me on to think about it
This is the finest game
It ain't even got a name
I just wanna see how far it takes us tonight

Do you got the music on girl? Yes I do Can you get a little closer? You bet I could Colombian with a swagger. Yes I am

Whatever it takes to make this thing work we gonna Whatever it takes to make this thing work we gonna Whatever it takes to make this thing work we gonna

There's a spy by my window
I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window
I know it's you
Won't you like to keep an eye on me
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be

When the dog's away that's when the cat's play You'll be my girl, I'll be the spy Like the James Bond flick girl I'm ready to ride

When the cat's away that's when the mouse play

You'll be my girl, I'll be the spy Like the James Bond flick girl I'm ready to die, die die

There's a spy by my window
I know it's you
You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window
I know it's you
Won't you like to keep an eye on me
I know you like to keep an eye on me
Keep an eye on me
But if you want it got to let it be
