

# Manic Panic

Sheena Easton

Fever, it's coming down  
And I feel it when you come around  
I try my best just to keep my cool  
So I don't come off looking like the fool  
My heart is in my knees  
You can't imagine what you do to me

I'm in a state  
A manic panic  
I can't relate  
My body starts to feeling frantic  
I'm acting like a total addict  
I'm in a state  
A state of manic panic

Passion, just can't ignore  
And it happens  
When you hit the door  
I feel a heat  
It's such a rush  
And there ain't nothin' that I like so much  
Don't know just what to do  
You can't imagine what you put me through

I'm in a state of manic panic  
When I get this way  
Ain't nothing ever copesthaetic  
Going insane is automatic  
I'm in a state  
Said give me a break  
Somebody gimme a breakdown

I try my best just to keep my cool  
So I don't come off looking like a fool  
My heart is in my knees  
You can't imagine what you do to me
