I am full and choosing to be full I'm on a boat, I'm in a lake, I'm with the water, I see the tre es I'm with the sun, I see the moon, I touch the sky

And how long would it take

If we were trapped in an elevator after the earthquake?

Five stories under debris

Five stories under debris
You and me in the garden indefinitely

After 10 hours were thinking about food We lost our voices from shouting and screaming And crying and singing and being really cruel My tummy rumbles but there's' no guitar

And I'm with you, I'm with you

So we have sex instead and we go so far And we do that for days 'til we're knee deep in cum Dehydrated , exhausted, insane aquarium I'm with you, I am with you

And how long would it take

If we were trapped in an elevator after the earthquake?

Five stories under debre

You and me in the garden indefinitely

And I remember the hunger from the last time Still hear, I remember the hunger And I remember the hunger from the last time Still hear, I remember the hunger

This could go one of two ways
Hollywood rescue or bodies and boques
Found after 3 months, smiling and bloated
The colors were great the smells they were quoted
And I'm with you, I am with you, I'm with you

So I'm, am full I'm choosing to be full
