

## Much Love

Shola Ama

(Ad lib)

When we're together you look at me  
And I see forever with you  
One thing I know you got me hooked  
There's nothing that I wouldn't do, yeah  
Every day I wanna be with you  
And every day I just wanna give you  
Much more love  
Much love  
It's all for you, baby  
No one makes me feel like you do I got much love  
It's all for you, baby  
I can't hide what's inside for you  
Baby, get with me so you can see  
That no one is for you like me, no. no  
Don't be afraid, my love is real  
I've got something you can feel, yeah  
Every day I wanna be with you  
Every day, baby, I-  
And every day I just wanna give you  
I just wanna give you more love  
(\* Repeat 2 times with ad lib)  
Break it down, yeah  
Come on now, get with it  
I just wanna give it, baby  
Come on now, get with it  
I want you to hit it, baby  
(\*Repeat and fade with ad lib)
