

# Hangman's Lullaby

Silentium

Laugh, my darling, laugh  
Hold your head up now  
Just hold me tight  
We still have tonight

Sing, my lady, sing  
Don't stop humming now  
Come, close your eyes  
Don't want to see his smile

Lit the night with your smile

Charm me again  
With those emerald eyes  
Charm me again  
Hangman's lullaby

Swing, my baby, swing  
Come close your eyes  
Won't stop humming now  
We still have tonight

Lit the night with your smile

Charm me again  
With those emerald eyes  
Charm me again  
Hangman's lullaby

Everything will be fine  
And now it's time, kiss me, goodnight

Charm me again  
With those emerald eyes  
Charm me again  
Hangman's lullaby
