

You can't see me behind the door  
I just heard everything you said  
You call him  
You're saying all the things you used to say to me  
Who is he  
I never thought you'd drop that avalanche on me  
And be unfaithful  
These hotel walls are paper thin  
I'm going out

Seven seven with the lime will keep me safe  
Long enough to stop the thought of your embrace inside my head  
The lies that I've been fed  
Throw it back behind my lips the pain is gone  
Line em up and knock em down the night goes on  
and on and on to let me cope with this disaster

I'm seven deep  
Long brown hair and blue eyes  
Looking right at me  
Who is she  
I never thought I'd ever think of stepping out  
I'll fight this temptation  
This crowded bar is full of sin  
I'm going out

Seven seven with the lime will keep me safe  
Long enough to stop the thought of your embrace inside my head  
The lies that I've been fed  
Throw it back behind my lips the pain is gone  
Line em up and knock em down the night goes on  
and on and on to let me cope with this disaster

I'm not coming home tonight  
I'd rather sleep on the street  
I'm not coming home to you  
I won't sleep with the devil  
(3x)

On this city street I'll rest my head tonight  
I'm going out!

Seven seven with the lime will keep me safe  
Long enough to stop the thought of your embrace inside my head  
The lies that I've been fed  
Throw it back behind my lips the pain is gone  
Line em up and knock em down the night goes on  
and on and on (and on and on) to let me cope with this disaster
