

# All I Want

Simon Webbe

Ask me where the worst place  
Could possibly be,  
Well I'm already there girl  
Guess how long it took  
To set all my demons free  
Well I'm already there girl

I got my wake up call  
When you shut that door  
And it all became clear to me

All I want is you  
I'm no longer confused  
My life is not the same and I'm to blame  
I need you babe  
Say this love won't die  
Give me one more try  
Don't really have to say  
You gotta leave you wanne break  
I need you Baby  
Oh yeah, oh yeah, yeah, yeah

I swear I'll change my ways  
If you promise to stay  
Wanna know my biggest fear girl

So take a look at me  
See how I've changed  
There's no-one to take your place

All I want is you  
I'm no longer confused  
My life is not the same and I'm to blame  
I need you babe  
Say this love won't die  
Give me one more try  
Don't really have to say  
You gotta leave you wanne break  
I need you Baby  
Oh yeah, oh yeah, yeah, yeah

I need you babe

Girl I know I did you wrong  
Yeah baby  
I gladly take you back if I could oh..  
I don't wanna fuss and fight  
Just gotta make things right  
We've still got the time

All I want is you  
I'm no longer confused  
My life is not the same and I'm to blame  
I need you babe  
Say this love won't die  
Give me one more try  
Don't really have to say

You gotta leave you wanna break

All I want is you  
I'm no longer confused  
My life is not the same and I'm to blame  
I need you babe  
Say this love won't die  
Give me one more try  
Don't really have to say  
You gotta leave you wanna break  
I need you Baby  
Oh yeah, oh yeah, yeah, yeah

All I want is you (4x)
