

## Holy Mountain

Sleep

Slumber killed by rays of the new red sun arising  
Dreamer wakens to spectral gaze of light rays shining  
Black steed carries him across the astral sand  
Rides alone is the man from the magic caravan

I believe the signs of the reptile master  
Sunbound spacepod rising faster  
Earth drenched in black under starless sky above  
Man on the mountain sets free the holy dove

Look onto the rays of the new stoner sun rising  
Sonic Titan rides out on clouds of new horizon  
Look onto the rays of the new stoner sun rising
