

## Dear God

Smokie Norful

It feels so good to make it this far  
And I didn't think I could take it so long  
There were days I wanted to quit  
I said surely this is it  
But I held on  
And I watched as so called friends turn and walk away  
It hurt so much I didn't have words to say  
But even when my day turns to nite and nothin seems just rite  
Lord I thank u for, for my life

For my life, lord I thank u  
For every victory in u I've seen  
And all the moments I know it was u who kept me  
So I thank u for, for my life

And I watched you take my family from there to here  
And when times where a lil ruff god I know u were near  
And the moments I thot I fail I was reminded of your nails  
So I held on  
And if I never live to see another day  
There is nothing I would change or take away

I've had so many ups  
That they far out way my downs  
Lord I thank u for my life

I realized some didn't make it...  
I could've been one of the ones who lost my way  
And there was times lord I know I almost went crazy  
But I'm still here, with my life

Itr may not be all that I hope for  
And every dream has not yet been realized  
And to see your face one day god  
I know it's all gonna be worht it

Yeaeaaa!  
Yeaaaaa!

So I thank u  
Thank u for every mt. every valley god every thing u brought me  
thru  
Thank u!  
I know I know it was u  
Jus wanna take the time to say thank u jesus for my life
