

Touch The Sky

Socialburn

I don't know
how long it takes
All i know is that I can't wait much longer
I don't know
what it takes
All I hope is the pain will only make us stronger
stronger
Is it the air in my breath that makes you afraid that I'm about to say what
I never should say

To someone just like you
who always gets confused
between love and abuse
and all the people you use
Or someone just like me
who can't go to sleep
without falling in love
without playing for keeps
But we can touch the sky
if we only try

I don't know
why the water breaks
but the wind in my hair makes me feel like I'm someone stronger
I don't know
why I make mistakes
but all I can hope is the pain will only make us stronger
stronger
Is it the air in my breath that makes you afraid that I'm about to say what
I never should say

To someone just like you
who always gets confused
between love and abuse
and all the people you use
Or someone just like me
who can't go to sleep
without falling in love
without playing for keeps
But we can touch the sky
if we only try

Is it the air in my breath that makes you afraid that I'm about to say what
I never should say

To someone just like you
who always gets confused
between love and abuse
and all the people you use
Or someone just like me
who can't go to sleep
without falling in love
without playing for keeps
But we can touch the sky
if we only try

Yeah you can touch the sky

And man you getta try
