Cinderella's Big Score

Sonic Youth

If I could give you anything I would give you a kick You'd rather have a dollar Than a hug from your sis

You really fucked up this time Your old lady's really pissed She's not just laughing She's polishing her fist

If you could give me anything Would you consider a fist?
Don't give me yr soul
It's caught is an abyss

Here's a pack of ciggies Fresh from the wonder lips A dream, a wish, a heart's desires Cinderella is a kiss

A cold is gonna take you And freeze away your tears Ome a little closer honey You can be so near

Mind your heart aside you Really got no sense of time Ninety-nine inside you That I'm scared if you were cryin'

If I could give you anything I would give you a kick You'd rather have a dollar Than a hug from your sis

A cold is gonna take you And freeze away your tears Come a little closer honey We can be so near
