Get On Out

Soul Asylum

I gotta get on I gotta get on out All these worried troubled thoughts gotta get on out of my head Gotta get on out of my head

Will I be on the streets tomorrow Will I have to beg and borrow Will I have to go back to the job I left behind Could you still make it With a guy who never made it Would you look into my eyes if I were to go blind

Gotta get on I gotta get on out All these worried troubled thoughts gotta get on out of my head Gotta get on out of my head

Now will you leave me for another Send me running back to mother Will I have the time to tell you how I really feel Am I just getting slower Or are you just talking faster Do we need bad disaster to make it plain to see

That all these worried troubled thoughts gotta get on out of my head Gotta get on out of my head

Do I just feel like cryin' Cause I'm sick and tried of tryin' Trying to convince you this ain't how it has to be The ground you walk on's sacred The sky above awaits you So cast all your frustrations to the bottomless sea

Gotta get on Gotta get on out All these worried troubled thoughts gotta get on out of my head Gotta get on out of my head
