

Wonderful World

Spiritual Beggars

Cloudless sky is in my eyes
The sun has come out for air
My dog is sitting by my side
Watching me getting high

What a wonderful world
Looking with inner eyes
What a wonderful world
Nothing ever dies

Can you feel the taste of life
Or are you blinded by the clowns?
Shake the water and feed the sun
Oil the universal joint

What a wonderful world
Looking with inner eyes
What a wonderful world
Nothing ever dies
