

## Years Go By

Split Enz

She gets up in the afternoon  
The sun will set behind her  
When the twilight comes  
The magic one, will gaze on you  
Seconds last for hours all evening  
This purple room is breathing  
To the milky way I turn my gaze  
It's a mystery  
Years go by, wonder what you did  
Yet in a minute you can change your life  
All depends on your state of mind

One thing to be sure of is we live and die  
Fear and doubt no longer harbour lies  
Love not grow old where we reside  
'Tis enough for now to set you down  
And gaze on you  
Years go by, wonder what you did  
Yet in a minute you can change your life  
All depends on your state of mind  
One thing to be sure of is we live and die
