

# Like a Good Girl

Status Quo

As I looked across  
To where she was before  
I didn't have long  
To wait around here anymore

We went to a place  
That I hadn't seen before  
She worked me over  
Then she went away

She looked to me like a good girl  
I played along like a fool  
I paid a lot just to find out  
She's no exception to the rule

As I carried on  
Looking here and there  
I couldn't believe  
She worked it out  
And it worked on me

I guessed early on  
But it didn't click inside  
She knew my weakness  
And she knew my name

She looked to me like a good girl  
I played along like a fool  
I paid a lot just to find out  
She's no exception to the rule

As I carried on  
Looking here and there  
I couldn't believe  
She worked it out  
And it worked on me

We went to a place  
That I hadn't seen before  
She worked me over  
Then she went away

She looked to me like a good girl  
I played along like a fool  
I paid a lot just to find out  
She's no exception to the rule
