

## When You Dream

Steel Attack

As nighttime falls  
Another dreamscape reveals  
Morpheus calls  
From his world of make believe  
Sometimes he let us see  
Sometimes he let us know  
Know what is to be  
What the future holds

"God of dreams I have to know  
What is to be, you have to show  
Show my future now

When you dream you're in my world  
The last dream it is eternal  
The final destination, the place to rest in peace  
When you dream you're in my world  
The last dream it is eternal  
So when you die you will be dreaming forever

Dreaming so sweet  
All is warm and beautiful  
In a flash it's all gone  
The light is fading, the dark is total  
Sometimes he let us be  
Sometimes he claim our soul  
For all eternity  
Forever more

"God of dreams I have to know  
What is to be, you have to show  
Show my future now
