

## In The Walls

stellastarr\*

In the walls, in the fall, I can see them all  
And the 44 superstores all across the mall  
It took a while for me to know I am not alone  
It took a while for me to know I'm not alone

Oh Oh Oh (8x)

Take your time, take a breathe, disregard the rest  
The falling chains, the falling lies, make pretend your mine  
It took a while for me to know I am not alone  
It took a while for me to know I'm not alone

Oh Oh Oh (8x)

Well I want to wake from my disease  
And the cure is lying next to me Da Da Da

And I'm trying so hard, yes I'm trying to be  
What your dreaming of, What your dreaming of  
Stay (stay), stay awake (stay awake), stay alive  
It's the only breathe you'll take (take)  
When ya go (when ya go, aah), when ya go go go

Well I want to wake from my disease  
And the cure is lying next to me Da Da Da  
And I'm trying so hard, yes I'm trying to be  
What your dreaming of, What your dreaming of  
And I'm trying so hard, yes I'm trying to be  
What your dreaming of (5x)
