

# Can't Keep I Down

Stephen Marley

They just can't keep I down  
I'll always be around  
Never will they get I down  
I'll always be around

I work real hard, night and day  
Can't let no one just, take that away  
I try in life, to do my best  
But some would love to see me stoop to less

They just can't keep I down  
I'll always be around  
Never will they get I down  
and I'll always, you'll always, he'll always, yeah

(musical interlude)

Some would love to sweep your feet off the ground  
Ev'ry time you get up they keep pushing you down  
The shortest way home is the long way round  
The deepest rivers never make a sound

They just can't keep I down  
I'll always be around  
Never will they get I down  
I'll always be around

I said they just can't keep I down  
and I'll always be around  
With the powers of jah jah jah jah

Can't keep I down (15 times)

They just can't keep I down  
I said they just can't keep I down
