

Give Me Life

Steppenwolf

Tell me baby, where's the fire
Tell me darlin', why the rush
Your one desire to leave your mark
May take you higher, but it may kill your spark

Take it easy darlin', try to take it slow
Roll on, just once in a while, girl
Roll on, try to let go
Don't let the good times pass you by, grab all you can

Play me a song that I can sing to
And let me be free to roam
Come along and help me sing my song
Rock battle cry all night long

Tell me, baby, what's the matter
Tell me, darlin', where's the fun
A little sadder when the day is done
Mad as a hatter, you just stay on the run

Take it easy, darlin', try to take it slow
Roll on, once in a while, girl
Roll on, try to let go
Don't let the good times pass you by, grab all you can

Show me the dreams that we can follow
And let 'em shine like a knife
Leave us some hope for our tomorrow
Rock bottom line - give me life

Play me a song I can sing to
And let me be free to roam
Come along and help me sing my
Rock battle cry all night long
Show me dreams that we can follow
And let 'em shine like a knife
Leave us some hope for our tomorrow
Rock bottom line- give me life
