

## Street Metal

Stillwell

I'm split between rappin' and metal  
From walking with Jesus and Kanye, to slayer's pact with the devil  
Ice cube's gat clip spits another round, or avoid the toxicity  
with system of a down  
I'm split between wu-tang and black Sabbath, guitar heroine hab  
its and crack addicts  
KRS and the temple of hip hop, or bang the hell out to the tempo  
of slipknot  
Life is great broken up and torn, I opened up for Rakim then I  
opened up for Korn  
No matter what I'm rock steady at every stop, alive with POD drop  
heavy rock.  
This is street metal  
The way I walk, how I talk tattooed head to toe rock star street  
rebel  
This is street metal  
Fitted caps, hot kicks, drum sticks mosh pits street metal  
The way I walk, how I talk tattooed head to toe rock star street

You see Wuv on the set that's street metal, Field dog shredding  
the frets that's street metal  
See Q penning the best that's street metal, Its deep level no need  
to be gentle  
I'm a remind them, they need to remember, It's like putting Nas  
and hatebreed in a blender  
I'm a mutated metal head rap spitter, Dio with the horns, MOP with  
the gat trigger  
If I gotta spit, then I'm a shoot a rhyme, If its head banger,  
then I'm a loose my mind  
This aint a phase you got to understand, This wasn't put together,  
this is what I am  
This is street metal

This is my heart, my soul, my fight, this is my way this is my  
life  
This is my heart, my soul, my fight, this is my way this is my  
life  
Nothing you could do could ever change me, if you're going to h

ate then you can hate me  
Nothing you could say could ever change me, if you're going to  
hate then you can hate me  
Its rage against the machine head, its all the busta' rhymes ja  
y z said  
It's the white zombie my black thoughts convey, cause Run & Aer  
osmith said walk this way!
