

## At the Break of This Day

Stormwitch

Let's hear about those days  
About the olden times  
When Herman beat the Romans  
In this glorious fight  
Now, hear the song about  
All those breathless deeds  
On the field of battle  
The Germans found relief

Underfeated stood  
The Roman Empire in those years  
All other nations were enslaved  
And mothers cried countless tears  
The evil ones, they felt too save  
Then someone came who brought there fall  
He was the man who had the plan  
He had the strength to free us all

At the break of this day  
When the mist clears away  
They are match for us, but we will stay  
At the break of this day  
We get on our way  
And today we will have the final say

He went to Rome and then  
Became the leader fort the legions of Rome  
He learned their politics  
And then his heart led him back home  
He talked to us we followed him  
And he convinced us all  
They were a lot, but we were fearless  
Together we stand, divided we fall

At the break...
