

Criminal

Stuck in the Sound

If falling in love is criminal
Then put me in jail I give it up
Out of line everytime
If love is a crime then stop me now
Cause you are my kind of criminal
Out of line

Stop me now, wonder if...

If falling apart is criminal
Let's get it together, we fuck it all
Out of line everytime
They push me too far, I give it up
We're up and about, we'll burn it all
Everytime

We sit in the dock and we don't care
We'll be standing in their way as they come in
The rest of the world, well we don't care
We'll be standing in their way as they come in

There is no coming back to a straight life
Everyday and every night, we're out of line
Everyday, everytime, we shut our mouth
To cross the gate, ready I am

If falling in love is criminal
If love is a crime then stop me now
If falling apart is criminal
I'm ready to become a criminal
