

Time May Bend

Styx

The time we've lost
Can't be replaced
What shall we do
With what remains?
Time may bend but it hasn't for me yet

Some live their dreams
Some push them away
But we made it here
Tempting our fate
Time may bend, but not enough for me

Calling out to the universe
Shine your light on me
The future of Mother Earth
Shine on, shine on
You're a mystery
Open up to me
Shine, shine on me

Calling out to the universe
Shine your light on me
The future of Mother Earth
Shine on, shine on
You're a mystery
Open up to me
Shine, shine on me
