

Somewhere Maybe

Sunset Sons

Come start another new life with me
I'll find another new life with you
Another new life we'll find, you'll see
We'll find another somewhere to be
Make a new start, we'll grow up again
But getting a new world will be kinda vim (?)
Making our way from shore to shore
Betting you time worth living for
She'll come again
She'll come again
Somewhere maybe, been thinking lately
Somewhere we'll find new skies await
The night unfolding, our eyes are opening
Take my hand, girl we're on our way
Come start another new life with me
I'll find another new life with you
Another new life we'll find, you'll see
We'll find another somewhere to be
She'll come again
She'll come again
She'll come again
She'll come again
Somewhere maybe, been thinking lately
Somewhere we'll find new skies await
The night unfolding, our eyes are opening
Take my hand, girl we're on our way
Somewhere maybe, I've been thinking lately
Take a chance girl, no time to waste
Somewhere maybe, my pretty lady
Take my hand, girl we're on our way
Ever leaving, leave the light on
Ever leaving, leave the light on
Ever leaving, leave the light on
Ever leaving, leave the light on
Leave the light on
Somewhere maybe, been thinking lately
Somewhere we'll find new skies await
The night unfolding, our eyes are opening
Take my hand, girl we're on our way□
