Desperate Dreams

Survivor

Two dreamers, what would it feel like to meet by light of day So lonely, wouldn't if feel right to love this night away Your name keeps echoing down this wishing well Wild hearts on an endless flight, Set free in our dreams tonight

Two souls drawn to the fire in desperate dreams Two hearts lost to desire's desperate schemes One girl lost in a reverie Lost love found in a memory Those nights live on forever Two fools lost in a desperate dream

Torn pages, more than a memory, pieces of the past One vision, your image keeps haunting me, a love too good to la st Your voice keeps echoing down this wishing well Wild hearts on an endless flight, Set free our dreams tonight

Two souls drawn to the fire in desperate dreams Two hearts lost to desire's desperate schemes One girl lost in a reverie Lost love found in a memory Those nights live on forever Two fools lost in a desperate dream

One love divided burns brightly through the night Two dreams united until the morning light

Two souls drawn to the fire in desperate dreams Two hearts lost to desire's desperate schemes One girl lost in a reverie Lost love found in a memory Those nights live on forever Two fools lost in a desperate dream
