

## Dear Love

Suzie McNeil

Dear Love, since we said goodbye  
Been looking for a moment to catch you up on my life (eh, eh, eh...)  
How long has it really been  
My tears are far from over  
But it's time to start again  
I'm right on the (ehh...) edge  
So do you have any kind of advice  
For healing a broken heart  
I spend my every weekend out  
Wonderin' where you are

You've been tearing me apart  
But I'm finally getting over the worst  
So I'm writing down my thoughts today  
And I have never been good with words  
But I need your help  
So I don't mess up like before  
Don't wanna be the one who runs  
The next time I find someone  
Dear Love... (dear love, dear love)

Cold feet  
Had you in my hands  
Took me by surprise  
When you didn't understand (No, you didn't understand...)  
But I should have known  
That love is such a gift  
To give it back so easy is to never know what it is  
Now look what I missed...  
So do you have any kind of advice  
For meeting you where you are

You've been tearing me apart  
But I'm finally getting over the worst  
So I'm writing down my thoughts today  
And I have never been good with words  
But I need your help  
So I don't mess up like before  
Don't wanna be the one who runs  
The next time I find some-oo-one

I've been running so fast I'm not going nowhere  
I shouda never let you go, I shoul da know that  
Love gets better, I really hope you (really didn't love another) (?)  
Oh, oh, oh...  
Could never realize that I can't live without you  
(What I never did before I ever do without you) (?)  
You're the one I treasure  
Always and forever  
Dear Love.....

You've been tearing me apart  
But I'm finally getting over the worst  
So I'm writing down my thoughts today  
And I have never been good with words  
But I need your help  
So I don't mess up like before

Don't wanna be the one who runs  
The next time I find someone  
Dear Love  
Dear Love, Dear Love  
Dear Love  
Dear Loo-oo-ove  
Dear Love.....
