## **Never Ever**

Crawling through life's jungle left alone and lost in time I need to lose my shadow I want you to be my guide

Feeding from desire out of reach and out of sight my road is long and darkened I know hope is on my side

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone

Crawling through life's jungle left alone and lost in time I need to lose my shadow I want you to be my guide

Feeding from desire out of reach and out of sight my road is long and darkened I know hope is on my side

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone

Never have I ever felt so alone never have I ever been stripped to the bone shivering shadow leave me alone shivering shadow forever alone
