

Holy Water

Taking Back Sunday

When the lights went down
And the room cleared out
I could see, I could see
Standing still and straight up right in front of me

Singing holy water, holy water, straight and narrow
I love you 'cause you shoot straight as an arrow
Now put some piece together in the palm of your hands
Take me out of there we'll see how well I stand
Nothing starts to matter I can feel it when
Take me out of there and it all goes to hell

You, you should be happy
'Cause you've got people, people that love you, baby
You do
You do

When the night gets low
In that room it's only you
Standing still and straight up right in front of me

Singing holy water, holy water, straight and narrow
I love you 'cause you shoot straight as an arrow
Now I'm thinking if you left, it wouldn't be half bad
Trust me I'm contrived so I can handle it
Nothing starts to matter I could feel it when
And I'm thinking if you left it wouldn't be half bad

You, you should be happy
'Cause you've got people, people that love you, baby
That love you, baby
You, you should be happy, baby, happy, baby
You've got people, people that love you, baby, baby, baby

Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow
Holy water, holy water, straight and narrow
Love you 'cause you shoot straight as an arrow

Oh, you, you should be happy, baby, happy, baby
You've got people, people that love you, baby, baby

People that love you, baby
They love you, baby
They love you, baby
Oh, I love you, baby
I love you, baby
I love you, baby, baby
People that love you, baby, baby
