

# Can't We Try

Teddy Pendergrass

Come lay your head on my heart  
Soon it'll be apart, stay here to the touch of morning  
I'm glad we're leaving as friends  
Baby, by the way, I forgot to say

Can't we try, love was never born to say goodbye  
Just another helpless fool in love is what I am  
But I don't give a damn, sorry, I forgot myself  
I guess that I'm just not myself

And I know that we're not supposed to cry  
Love was supposed to die when people get to know each other  
In case I don't see you again  
Really wish you well, baby, this is hell

Can't we try, love was never born to say goodbye  
Touch me one more time and make me feel that I'm alive  
And if we don't survive  
At least we'll have a moment here with honest pain and tears

Then say goodbye, come lay your head down on my heart  
The morning suddenly leads you, you know, yet I don't need you  
We can't go back to yesterday, go away  
Girl, I wished you'd stay

Can't we try, love was never born to say goodbye  
Touch me one more time and make me feel that I'm alive  
And if we don't survive  
Then we will end like we began and even though it's over

Can't we try, let's go back to yesterday, and I  
Just another helpless fool in love is what I am  
But I don't give a damn  
See, once before I set you free, I just got to hold you close to me

Can't we try, love was never born to say goodbye  
I want you to touch me, touch me one more time  
And make me feel that I'm alive  
And if we don't survive  
Then we can end like we began and even though it's over

Can't we try, let's go back to yesterday, and I  
See, I'm just another, just another helpless fool in, in love is what  
I am  
But I don't give a damn  
See, once before I set you free, I got to have you, I got to have you  
??

Can't we try  
Love was never born to say goodbye
