Teena Marie

365

I've got a head rush, hush You're heaven's dial, a crush I prayed for you forever And he sent you last November, finally

You better hold tight flight Two shadows, one at night Each instant lasting so long The spirit in this very song, reminding me That life has taught me lessons Like don't dare to question fate For God will do the gifting All we've got to do is wait

So if anybody asks you if your love is alive Tell them all to count up to 365 365 365 days a year Three hundred and sixty-five That's how much I love you dear

I got a love jones in my bones I hear a saxaphone A melody so haunting It leaves my heart never wanting More than you You really fit the bill

The first day of April And now I know that deep inside my heart You're gonna play the biggest part in my love debut For with you comes the passion Like Spring time I fathom grand I cherish every blessing I get When you kiss and hold my hand

So if anybody asks if your love is alive Tell them all to count up to three hundred and sixty-five 365 365 days a year Three hundred and sixty-five That's how much I love you dear

Do you remember last November, baby That's when I met you When Heaven sent you baby, ah Sometimes I stop and throw my hands up in the air You make me holler, hey Tee, Tee won't go away

It's more than just a feeling, it's destiny I'm gonna testify about the long you're giving to me I'm gonna break it down for you Gonna break down Break it down Break it on down, I love you If anybody asks if your love is alive Tell them all to count up to three hundred and sixty-five 365 365 days a year Three hundred and sixty-five That's how much I love you dear
