

Love Became the Law

Ten

It's you that I adore
How could I count the ways?
For I have found with you
A love so pure and true
That nothing breaks the fall
Well maybe I'm in awe
Just maybe I'm amazed
When every road I choose
Begins and ends with you
I'm finally not alone
Love like ours burns like fire, dusk till dawn
Endless light giving proof
Love like ours answers why we were born
I was confused, then there was you
And love became the law
In love you give it all
Your heart decides the way
The sweetest kiss and tell
That casts a moonlit spell
Then pins toy to the wall
Love like ours burns like fire, dusk till dawn
Endless light giving proof
Love like ours answers why we were born
I was confused, then there was you
And love became the law
