

Breathe In Breathe Out

The Afters

I always think tomorrow will be better
That there will come a day when I arrive
That the list of everything I've got to do
Will be a page of empty lines

I apologize to myself for living in the future
And letting what's ahead get in the way
Because if happiness is always down the road
Then I'm missing it today

Breathe in, Breathe out
Slow down, slow down
Everybody look around
Life is where we are now
Breathe in, Breathe out

I don't need no money to be wealthy
There's more to life than working for green
Climbing all these ladders doesn't matter
I've got everything I need

Breathe in, Breathe out
Slow down, slow down
Everybody look around
Life is where we are now
Breathe in, Breathe out

I'm running a race that no one wins
And setting the pace for the Joneses
But I see the warning signs
Those yellow flashing lights
And I wonder why

Breathe in, Breathe out
Slow down, slow down
Everybody look around
Life is where we are now
Breathe in, Breathe out
