## **Here She Comes**

## The Androids

Do do, do do, do do do Do do, do do, do do do

I've got her stuck in my brain like a tattoo memory I've just gotta say
That she's so hot I feel warm on a winter's day
And the snow just melts away

Come out and play, I can see that you move so great We'll all just watch you dancin'
It hurts my brain just to think that you look like that And not a bit of you is plastic

Here she comes
She sees right through me
Her hair is long
She shakes that booty

Here she comes
She's takin' over
My mind is blown
I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do do do)

When she walks by all I hear is a lot of static She blows me away I've got her stuck in my brain like a tattoo memory I've just gotta say

Here she comes
She sees right through me
Her hair is long
She shakes that booty

Here she comes
She's takin' over
My mind is blown
I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do)

I wonder if she knows what she puts me through I wonder if she knows what she makes me do

Here she comes
She sees right through me
Her hair is long
She shakes that booty

Here she comes She's takin' over My mind is blown I'm a Casanova

Here she comes She sees right through me Her hair is long
She shakes that booty

Here she comes
She's takin' over
My mind is blown
I'm a Casanova clown
(Do do, do do, do do do)
(Do do, do do, do do do)
