

## Peace, Pain And Regret

### The Anniversary

I've known a lot of funny people  
The ones that make us laugh  
I've known a lot of lonely people  
Calling from the past  
And in my darkest hour  
I find the place where I fit in  
Somewhere between the heavens  
And the devil's weary grin  
I always will be haunted by the ones I've loved  
Yes I always will be haunted by the ones I've loved  
In my eyes

We are the ones that make you laugh  
Forget about your troubles  
Live in peace, pain and regret  
And forget all your troubles

I've known a lot lovely people  
Though they never spoke to me  
I've known a lot lovely people  
And they never meant a thing  
So bring on the piper  
Or the jester's lonely heart  
For even the happy man  
Gets lonely in the dark  
I plan to be high beneath the sea  
So don't hold your breath, just breathe

We are the ones that make you laugh  
Forget about your troubles  
Live in peace, pain and regret  
And forget all your troubles  
We are the ones that make you love  
When you have no one at all  
Yes we are the ones that make you laugh

We are the ones  
We are the ones that make you laugh  
Forget about your troubles  
Live in peace, pain and regret  
And forget all your troubles  
We are the ones that make you love  
When you have no one at all  
Yes we are the ones that make you laugh  
Yes, we are the ones
