

Do I Know You

The Black Box Revelation

Walking in a dream.
Far from any meaning
you're astonished I forgot your name

Trying to get things back
from my memory bank
nothing helps me
make a mental chain

Hey
Do I know you?
Do I want to?

you might be sweet
or lying through your teeth
it's kinda freaky know ure well

the time has come for me to excuse myself
you must have mistaken me for someone else
next time we meet I may remember

Hey
Do I know you?
Do I want to?
