

# I Don't Know

## The Blues Brothers

Sick and tired by the way you do  
Good time papa gonna poison you  
Sprinkle goofer dust all around your bed  
Wake up one of these days, find your own self dead  
She said you shouldn't say that  
I said What did I say to make you mad this time baby?  
She said Umm...  
I don't know  
My oh my oh my  
She said I don't know but my baby's holding down  
The woman I love has got devil in her jaw  
Clothes she's wearing made out of the best of cloth  
She can take 'em and wash 'em, put 'em upside a wall  
She can throw 'em out a window, pick 'em up a little before the fall  
Sometimes I think you got your habits on  
She said You shouldn't say that  
I said What did I say to piss you off this time baby?  
She said Umm...  
I don't know, my oh my, I don't know  
But my baby's holding down  
My momma told me, my momma sat down and cried  
She said you're too young to have as many woman as you got  
I looked at my mother dear, didn't even crack a smile  
Said If woman don't kill me I don't mind dying  
The woman I love, I want to wait for last  
The woman I love, I have all class  
Thought I warned you baby, a long time ago  
Better watch your step or I'm going to have to let you go  
She said you shouldn't say that  
I said Baby  
You know when you bend over I see every bit of Christmas  
And when you bend back I'm looking right into the new year  
She said Honey, you know I gave up cigarettes for my new year's resolution  
But I didn't give up smoking  
I said Woman, you going to walk a mile for a Camel  
Or are you going to make like Mr Chesterfield and satisfy?  
She said That all depends on what your packing  
Regular or kingsize  
Then she pulled out my Jim Beam, and to her surprise  
It was every bit as hard as my Canadian Club  
I said What now you got to say baby?  
She said Umm...  
I don't know  
My oh my oh my  
I don't know  
But my baby's holding down
