Spark

The Breeders

I am chewing on power lines Spraying the yard in spark Clouds were bruised when the day broke Clouds were bruised when the day broke

You're in this town You're in the Stinging my eyes enthralled Clouds were bruised when the day broke Clouds were bruised when the day broke

I went abroad, wrote a line home
Wouldn't write again
'Til the cruel year was gone

My lips Kisses cotton Got stuck here forever

Clouds were bruised when the day broke Clouds were bruised when the day broke Clouds were bruised when the day broke

Chewing on power lines Spraying the yard in spark
