

# Rock 'n' Roll Sweetheart

The Creepshow

With out ever knowing, don't waste no time  
Got a face like an angel and the devil in my eyes  
Come in closer, step over the line  
So I can take your soul and keep you on my dime

Well you can try to get away but boy I've got you here to stay  
Cursed in love now you become my prey

SHE'S A

Rock and Roll Sweetheart, left your heart right on the floor  
In its bloody state I got you wanting more  
Rock and Roll Sweetheart, left your kiss right at the door  
Though it's sweet as candy I got you wanting more

Cold wind blowing, you can run and hide  
I'll be right behind you the master of this ride  
Got a poisonous heart boy, and through demon eyes  
We'll be happy together, until the end of time

You can turn the lights out, close your eyes and pray  
Lock your windows baby, I'm coming anyway  
Paint your door with blood babe, I'm still comin' in  
You'll be my sweetest SIN
