

And Then I Dreamt of Yes

The Dandy Warhols

Well I've been down now,
like I never got started,
guess you want your world just a certain way

And I could tell you this,
I've been outsmarted,
and that hurts me more, than it hurts me how much I miss...

I found that I understand
I'd never regret it,
and I've said things that I know right now I never meant

Well I've been down now,
guess you want your world just a certain way

Well I've been down now,
guess you want your world just a certain way

Well I've been down now,
like I never got started,
guess you want your world just a certain way

And I could tell you this,
I've been outsmarted,
and that hurts me more, than it hurts me how much I miss...

Well I've been down now
Well I've been down now
Well I've been down now
