## The Feeling

If you know what's good for you, you'll stay  
If you know what's good for you, you'll stay  
What did I do to make you treat me this way?  
If you know what's good for you, you'd stay

I'm telling you now you're gonna break my heart  
Leaving me here like an old spare part  
I'm in trouble  
I'm in trouble (Come back to me on the double)

'Cause together we were made  
Like thunder and rain  
Like the passion and the pain  
It's a thing that's heaven made  
Undeniable

Do you remember we went to Heaven?  
Under the arches  
Open from eleven  
And we were dancing  
And we belonged there  
Four in the morning  
Meet me in Trafalgar Square  
We can get the night bus there  
And blow a kiss to Nelson  
But time was mean to us  
And things have fallen through the gaps in between us

'Cause together we were made  
Like thunder and rain  
Like the passion and the pain  
Doesn't matter what you say  
It's undeniable

Undeniable  
Undeniable  
Undeniable

Together we were made (20x)
