

Change Your Mind

The Horrors

If my heart should grow
Closer than I know it's worth
Then my heart should know
Better not to fall in love

Hey, I'm still burning
Do you look at him the way she looks at me
Hey, I'm still burning
Would you really walk away from me

So please tell the world
And please keep away from me
You know that it only takes one of us
You know you won't say

Would you change your mind?
Would you always believe?
Would you change your mind?
Would you always believe?
You know that it only takes one of us
You know you won't say
Would you change your mind?

Hey I'm still burning
Would you ever leave that boy for me
Hey I'm still burning
Do you look at him the way she looks at me

So please tell the world
And please keep away from me
You know that it only takes one of us
You know you won't say

Would you change your mind?
Would you always believe?
Would you change your mind?
Would you always believe?
You know that it only takes one of us
You know you won't say
Would you change your mind?

Whatever it takes, wherever you go
Nowhere is safe, nowhere at all
Still there's a long way to go
Deeper, deeper to silence and snow

You know that it only takes one of us
You know you won't say
You know that it only takes one of us
You know you won't say
You know that it only takes one of us
You know you won't say
You know that it only takes one of us
You know you won't say
