

# Armageddon

## The Murder of My Sweet

The clouds are getting darker  
My heart goes tick tock  
They say the light will strike tonight, it's time

Our world is going under  
Are you prepared to fight?  
Bring all your monsters now  
It's time we face the fire

This means war  
Reload your gun  
It's time to run  
Armageddon baby  
This means war  
We'll fight as one  
Bring down the sun  
Armageddon baby  
This means war  
This means war

Last night on earth, it's alright  
Let's make it, worth while  
Come close and feel my body, don't let go

Our world is going under  
Are you prepared to fight?  
Bring all your monsters now  
It's time we face the fire

The clouds are getting darker  
It's time to face the fire now  
I need your arms around me baby  
Stay close tonight  
Stay close tonight

Our world is going under  
Are you prepared to fight?  
This means war  
This means war  
'Cause this means war  
This means war  
Reload your gun  
It's time to run  
Armageddon baby  
This means war  
We'll fight as one  
Bring down the sun  
Armageddon baby  
This means war  
This means war

No more false predictions  
Never liked your visions  
Get ready 'cause this means war  
Get ready 'cause this means war
