

Right Place

The Mynabirds

I've got your number, you've got mine
I think about you time to time
I wonder if you wonder why
Or if you changed your mind
Have you even tried?

Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls right in place

We'll watch the shadows fall
And count the lessons all
I'm sure you did what you thought was best
And I'm doing fine out west

Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls in its right place
Every little thing when it falls
It falls right in place

I've lost your number
Have you lost mine?
I think about you time to time
And I still wonder why
But I haven't changed my mind
God knows I tried
