

## Religions Dead

### The Pretty Things

When they left you on tobacco road  
The piggies they really left you there for dead  
Do you really greet the morning  
With your eyes red  
And do people pick your body now for lead

Pick yourself just one more seat  
And sit yourself right down  
Rest assured some jack here must know  
I just can't stop bleeding  
Resurrection was so long ago

All the churches have fallen  
They've pulled them on their heads  
There are no jesus left  
And all religions dead

Pick yourself just one more seat  
And sit yourself down  
Rest assured some jack ass must know  
I just can't seem to stop this bleeding  
Resurrection was so long ago
