

# Island Of Love

The Rascals

Have you ever been on the Island of Love, yeah yeah  
In love with somebody sent down from above?

There's people smiling at you everywhere (everywhere)  
The smell of sweet flowers filling up the air (filling up the air)  
Birds singing love songs so tenderly  
It's like being together in the Garden of Eden  
Loving somebody gives your life a new meaning

Have you ever been on the Island of Love, yeah yeah  
In love with somebody sent down from above?

Sun shining brightly every single day (every day)  
Happy laughing children all along your way (all along your way)  
Ain't a bit of sadness nowhere to be found  
You're a touched-off rocket set to leave the ground  
Nothing in this world is gonna keep you down

Uh huh huh  
Oh

All it takes is a hand to hold (hand to hold)  
You'll feel like a flower ready to unfold (ready to unfold)  
Sit her down, take a look in her eyes  
Boat leaving for paradise  
Hearts together, let your soul entwine

If you've never been on the Island of Love, come on  
Yeah  
I'll tell you how to get there  
All you really need is someone  
Come on  
Have you ever been on the Island?  
Yeah, you know I've on the Island  
Have you ever been on the Island?  
Yeah, yeah  
Have you ever been?  
Yeah  
Yeah  
Oh  
On an island  
Let me take you to the Island  
Of love
