

Jennifer Que

The Real McKenzies

talking 'bout a girl with long green hair
commin' up down from oklahom-a
we told her to run but instead she stayed
she's lookin' so good and she does good books
she's got the gleam of a liberty belle
like a statue in the harbour down in new york city
maybe today she's going to drive us away
down to kalamazoo coz that's what she do
may as well say we've been through hell
she and me and the band as well
there ain't nothin' she can't do
and how we love you, jennifer cue
[Repeat Chorus]
