

Revolution

The Retrosic

"Viva viva la revolucion!"

We have learned to think the way they do
They have formed our will and say what's true
Our names are meaningless
There is only one to praise and bless

But when the moon will eclipse the sun
The little pigs get themselves a gun
Here we come to dispossess the king
We are up and ready and we will win

Revolt - against the constitution
Revolt - against the institution
Revolt - for revolution

Glorious children of revolution
Today you made yourself an institution
Enjoy and watch the next rebel
Already armed for your own farewell

"Viva viva la revolucion!"

Revolt - against the constitution
Revolt - against the institution
Revolt - for revolution

Revolt - offwalk your evolution
