

# Shadow in the Dark

the ring of fire

First to came to me  
Tried a friend to be  
Then you started to hate  
Full of jealousy  
Became my enemy  
There was nothing to say  
But when the sun rises high there's no place for you  
You'll be gone away but you won't even leave a mark  
Just remember you are just a shadow of the dark

Someday you will see  
What you did to me  
How you turned me away  
Stole my dignity  
Then you laughed at me  
Tried to drive me insane  
But when the sun rises high there's no place for you  
You'll be gone away but you won't even leave a mark  
Just remember you are just a shadow of the dark

Nowhere to run  
Nowhere to hide  
From all your lies  
Morning has come  
You're caught in the light of day  
Now you're gonna melt away
