

Promise Me

The Saturdays

We partyin'
(We partyin')

So here we are again
I'm almost giving in
I'm over-listening about
Who you with or where you've been

I got drunk with my friends
A list from one to ten
Are you the man that I need, I need? (No)

If I was doing this
Would you put up with this?
Do what you're mama said
Love or leave alone
I'm gone
Cos all you ever do

You promise me me me the the the world
You promise never to let down a girl
But now I know
It's time to go

Tonight I'm gonna go
And party party go
Without you
I'm gonna go
And party party go
Without you

You womanizing games
Although you've say you've changed (No)
I guess I always be your option not priority

The best you never have
One day you'll wish me back
There won't be no one like me, me (No)

If I was doing this
Would you put up with this?
Do what you're mama said
Love or leave alone
I'm gone
Cos all you ever do

You promise me me me the the the world
You promise never to let down a girl
But now I know
It's time to go

Tonight I'm gonna go
And party party go
Without you
I'm gonna go
And party party go
Without you

Promise this
Promise that
But you won't get me back
You won't find me home alone

Promise this
Promise that
But you won't get me back
Someone will love what you don't

You promise me me me the the the world
You promise never to let down a girl
But now I know
It's time to go

Tonight I'm gonna go
And party party go (I'm gone without you, yeah)
Without you
I'm gonna go
And party party go
Without you
