

## Eyes Of Darkness

### The Sorrow

The best friend  
For long, long time  
I look at you  
Standing in the pouring rain  
You disappear while I'm away

This is for the love,  
Grace and loyalty  
Eyes of darkness

Dying for all the love you've given  
Crying without you I am torn inside

I mourn in deepest black  
Which god will tear us apart  
No heart as big as yours  
In death you dare a new start

I miss the times  
We used to share  
Look down on me  
Walking on this lifeless soil  
I'm in despair while you're away
